

SMART ENERGY GRANT FAQ SHEET

WHAT IS IT?

Northern Territory residents are eligible to receive up to \$1000 off the cost of replacing their split system air conditioner under the NT Government's Smart Energy Grants program.

The Smart Energy Grant program is a voucher system based on a 50-50 co-contribution (up to \$1000), to help homeowners of owner-occupier properties or investment properties make their homes more energy efficient.

To assist approved eligible members of the Northern Territory Pensioner and Carer Concession Scheme, the co-contribution is reduced to 25% (instead of 50%), making it more affordable.

WHAT ARE THE MINIMUM REQUIREMENTS?

Replacement split system air conditioners can be either cooling-only or reverse cycle models that provide heating. Existing systems due to be replaced must be at least six years old. The new system must meet the following minimum energy efficiency star ratings*:

*The energy efficiency star ratings as determined by the Equipment Energy Efficiency (E3) program shall be used. For further information go to the Energy Rating website (www.energyrating.gov.au).

COOLING OUTPUT	ENERGY EFFICIENCY STAR RATING
Up to 3kW	★★★★★★
3.1kW to 5.0kw	★★★★☆
5.1kW to 7.0kw	★★★
7.1kW to 8.0kw	★★★☆☆
Above 8.1kw	★★

HOW TO
GET UP TO

\$1000 OFF

YOUR DAIKIN
SPLIT SYSTEM

STEP 1

**CONTACT YOUR LOCAL
DAIKIN SPECIALIST DEALER**

Your local Daikin Specialist Dealer will assess and plan the right replacement split system air-conditioning solution for your property, giving full consideration to the terms and conditions specified under the Smart Energy Grant program.

STEP 2

**GET QUOTATION FROM
DAIKIN SPECIALIST DEALER**

If the solution includes an eligible Daikin split system under the grant, the Daikin Specialist Dealer will generate a quotation. Ensure that quotations are valid for a minimum of 3 months to allow processing time of claims by the NT Government, and include a specific set of information to qualify for application.

STEP 3

**SUBMIT AN APPLICATION
FOR THE GRANT**

You (the homeowner) must independently submit the application to the NT Government Smart Energy Grants website.

Go to www.smartenergy.nt.gov.au. Please allow three to four weeks for a response.

STEP 4

**IF APPROVED, WAIT UNTIL
VOUCHER IS RECEIVED**

It can take approximately four weeks for the voucher to be issued. Installations cannot occur until the voucher has been received. Vouchers are valid for three months.

IMPORTANT: If installations occur prior to receiving the voucher, your application will be void and you will no longer be eligible to receive the voucher.

STEP 5

**ORGANISE AND UNDERTAKE
THE INSTALLATION**

Work with your Daikin Specialist Dealer to plan a day and time for your replacement split system installation.

STEP 6

**PAY WITH THE VOUCHER,
AND FUND THE BALANCE**

Once the installation is complete, use the voucher as part payment. You are responsible in providing payment for the balance of the cost to your Daikin Specialist Dealer according to the terms and conditions specified in the contract.

ELIGIBLE DAIKIN SPLIT SYSTEMS

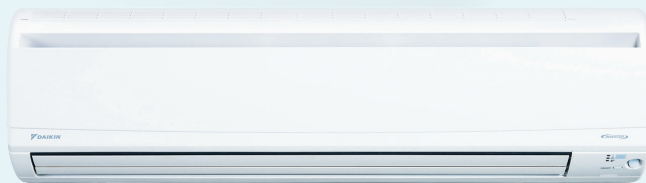

US7

The first and only split system in Australia with a 7-star 'Super Efficiency' rating.

CORA

Delivers energy efficiency and superior comfort levels without compromising on style.

L-SERIES

A reliable and flexible solution to suit any room.
