## About APCO

Australian Packaging Covenant Organisation (APCO) is a co-regulatory not-for-profit organisation leading the development of a circular economy for packaging in Australia. APCO's vision is a packaging value chain that collaborates to keep packaging materials out of landfill and retains the maximum value of the materials, energy and labour within the local economy.

Each year, APCO Brand Owner Members are required to submit an APCO Annual Report and an APCO Action Plan. This document is the Annual Report and Action Plan output for the organisation listed above. This document provides the overall performance level of the organisation, as well as any commitments they have made to work towards on their packaging sustainability journey. This document may also include additional information provided by the Member in their report.

Describe any opportunities or constraints that affected performance within your chosen reporting period

Slow progress in obtaining accurate packaging information from suppliers. No decision-making abilities regarding improving the sustainability of packaging used by our suppliers.

Please use the space below to provide examples or case studies of exemplary packaging sustainability conducted by your organisation.

Our manufacturing plant in Australia has set themselves as goal to eliminate the use of EPS, which has already resulted in a significant reduction.

## APCO Action Plan Commitments

For each of the Packaging Sustainability Framework criteria listed below, a description is provided along with the commitments made by the organisation in their APCO Action Plan.

Criteria 1:

### Governance & Strategy:

This criteria considers actions to integrate packaging sustainability into business strategies.

- Develop a strategy that includes goals (objectives) and targets for packaging sustainability that addresses the Sustainable Packaging Guidelines (SPGs) or equivalent.
- Regularly communicate and promote packaging sustainability objectives and targets within our organisation.
- Regularly engage or communicate with our external stakeholders about the environmental impacts of our packaging.

Criteria 2:

### Design & Procurement:

This criteria considers actions taken to ensure that sustainability principles are considered in the design or procurement of both new and existing packaging through use of the Sustainable Packaging Guidelines (SPGs).

- Review **10%** of our packaging against the Sustainable Packaging Guidelines (or equivalent).
- Improve the accuracy of our data regarding reviews of packaging using the Sustainable Packaging Guidelines (or equivalent).
- Consider the following Sustainable Packaging Principles in our packaging reviews:
  - Optimise material efficiency
  - Design to reduce product waste

- Design to minimise litter
- Design for transport efficiency
- 10% of our packaging to be optimised for material efficiency.
- Improve the accuracy of our data regarding packaging material efficiency.

## Criteria 3:

**Recycled Content:**

This criteria considers actions taken to increase or optimise the amount of recycled material used by your organisation.

- Use recycled content in:
  - Other items which we purchase (e.g. office stationary and suppliers etc.)

## Criteria 4:

**Recoverability:**

This criteria considers actions taken to improve the recovery of packaging at end-of-life and increase use of reusable packaging.

- Improve the accuracy of our data regarding recoverability.

## Criteria 5:

**Disposal Labelling:**

This criteria considers the extent to which packaging has been labelled to help consumers determine what to do with packaging at end-of-life.

- 5% of our packaging to have on-pack labelling to inform correct disposal.
- Improve the accuracy of our data regarding labelling.

## Criteria 6:

**On-site Waste:**

This criteria considers progress in increasing the amount of on-site solid waste being diverted from landfill.

- Have recycling programs for the following materials:
  - Paper/cardboard
  - Soft plastics
  - Rigid plastics
  - Timber
  - Metals
- Aim for 80% of our on-site waste to be diverted from landfill.

Criteria 7:

**Problematic Materials:**

This criteria considers the extent to which organisations are actively phasing out problematic and unnecessary single-use plastic packaging and preventing/reducing litter.

- Help reduce litter by:
  - Conducting regular clean ups
  - Participating in Business Clean Up Day
